UNIVERSIDAD PERUANA DE CIENCIAS APLICADAS

CARRERA:

Ingeniería de Software

CURSO:

Desarrollo de Aplicaciones Open Source

SECCIÓN:

WX52

FINAL PROYECT REPORT - TB1

STARTUP:

DOCENTE:

Juan Antonio Flores Moroco

GRUPO 02

AUTORES:

Doig Apostol, Andrés - U201712256

Llatas Flores, Enrique Aldhair - U20201F172

Carrasco Hernández, Florentino Josue - U202020727

Cueva Elera, Erick Armando - U201910151

Zamora Rivera, Ismael Sebastián - U

Lima - Septiembre 2023

Registro de Versiones del Informe

06.09.23 - TB1

Student Outcome

Capítulo 1: Introducción

1.1. Startup Profile

1.1.1. Descripción de la Startup

1.1.2. Perfiles de integrantes del equipo

1.2. Solution Profile

1.2.1. Antecedentes y problemática

1.2.2. Lean UX Process

1.2.2.1. Lean UX Problem Statements

1.2.2.2. Lean UX Assumptions

1.2.2.3. Lean UX Hypothesis Statements

1.2.2.4. Lean UX Canvas

1.3. Segmentos objetivo

Capítulo 2: Requierements Elicitation & Analysis

2.1. Competidores

2.1.1. Análisis competitivo

2.1.2. Estrategias y tácticas frente a competidores

2.2. Entrevistas

2.2.1. Diseño de entrevistas

2.2.2. Registro de entrevistas

2.2.3. Análisis de entrevistas

2.3. Needfinding

2.3.1. User Personas

2.3.2. User Tast Matrix

2.3.3. User Journey Mapping

2.3.4. Empathy Mapping

2.3.5. As-Is Scenario Mapping

Capítulo 3: Requirements Specification

3.1. To-Be Scneario Mapping

3.2. User Stories

3.3. Impact Mapping

3.4. Product Backlog

Capítulo 4: Product Design

4.1. Style Guidelines

4.1.1. General Style Guidelines

4.1.2. Web Style Guidelines

4.2. Information Architechture

4.2.1. Organization Systems

4.2.2. Labeling Systems

4.2.3. SEO Tags and Meta Tags

4.2.4. Searching Systems

4.2.5. Navigation Systems

4.3. Landing Page UI Design

4.3.1. Landing Page Wireframe

4.3.2. Landing Page Mock-Up

4.4. Web Applications UX/UI Design

4.4.1. Web Applications Wireframes

4.4.2. Web Applications Wireflow Diagrams

4.4.3. Web Applications Mock-Ups

4.4.4. Web Applications User Flow Diagrams

4.5. Web Applications Prototyping

4.6. Domain-Driven Software Architecture

4.6.1. Software Architecture Context Diagram

4.6.2. Software Architecture Container Diagrams

4.6.3. Software Architecture Components Diagrams

4.7. Software Object-Oriented Design

4.7.1. Class Diagrams

4.7.2. Class Dictionary

4.8. Database Design

4.8.1. Database Diagram

Capítulo 5: Product Implementation, Validation & Deployment

5.1. Software Configuration Management

5.1.1. Software Development Environment Configuration

5.1.2. Source Code Management

5.1.3. Source Code Style Guide & Conventions

5.1.4. Software Deployment Configuration

5.2. Landing Page, Services & Applications Implementation

5.2.1. Sprint 1

5.2.1.1. Sprint Planning 1

5.2.1.2. Sprint Backlog 1

5.2.1.3. Development Evidence for Spring Review

5.2.1.4. Testing Suite Evidence for Sprint Review

5.2.1.5. Execution Evidence for Sprint Review

5.2.1.6. Services Documentation Evidence for Sprint Review

5.2.1.7. Software Deployment Evidence for Sprint Review

5.2.1.8. Team Collaboration Insights during Sprint

5.3. Validation Interviews

5.3.1. Diseño de Entrevistas

5.3.2. Registro de Entrevistas

5.3.3. Evaluaciones según heurísticas

5.4. Video About-the-Product.

Conclusiones

Conclusiones y recomendaciones

Video About-the-Team
